TOSHIBA

Light Self-Service Kiosk

Toshiba presents the most complete self-service solution for Retail.

A compact self-service solution for store management including HW, SW Integration, and maintenance services.

It covers the needs of self-service for stores, covering the entire cycle from consulting, integration, commissioning and maintenance, thus obtaining a new channel in the checkout process.

Easy integration to existing customer solutions (POS management SW). In addition, the solution is modulable and evolutionary, allowing the retailer to choose which modules want to integrate and when, protecting the investment at any time.

All this with a cost much lower than the traditional self-service solutions, obtaining a saving up to 60%.

TOGETHER COMMERCE

Flexibe and efficient kiosk

Toshiba is aware that retailers like you, are betting more than ever for self-service solutions to achieve the best possible ratio in the relationship: Increase in sales / investment.

Part of the problem is due to the need for IT resources to integrate the systems, different partners in SW, HW and Maintenance, need to change the layout of the store and, above all, a high cost.

For this reason, Toshiba introduce a self- service solution to position on the existing furniture in store, easily relocatable, which responds to the growing market demand up to 60% savings compared to other traditional solutions in the market.

Fully customizable kiosk

- RAL color selectable based on Retailer´s choice
- Material with different smooth, rough finishes, etc
- Simulated wood, rock, ceramic, etc., finishing touches with plastic PET plates

Easy acccess and maintenence

The smart design allows the user to change the paper roll in a easy and quick way, thanks to its automatic paper feed and centered mechanism.

Tool-less design for simple maintenance, quick and easy access to POS, scanner, printer, and Pinpad, without tools.

The access to power supply and cabling is secured by lock .

A seamless business management system

Based on your customers' needs, store layout and more, you can create the experience that works best for your business. The transactional engine is built for speed and agility.

- Navigation
  - Intuitive. Guided at all times textually, visually and by voice
- Multi-language
  - Easily increase your customer target
- Easily editable
  - Customizable with Retailer brand image, the graphical interface is also editable by Retailer itself
- Security and management
  - POS integration based on XML messaging
  - Smart security control
  - Simple to manage and to monitor
  - Centralized and decentralized management capabilities
- Quick integration
  - One week from Toshiba to make a Pilot (transactions only)
  - No effort of time and cost from the Retailer
  - Export and import of flat files
